

PRESS RELEASE

infoteam gives Swiss Healthcare Startups a boost

Industry membership in the Swiss start-up network

Bubenreuth/Buchs SG/Zürich, 12th of July 2022

- Swiss start-up industry is booming
- Swiss Healthcare Startups network connects young companies in the healthcare sector
- infoteam Software Group, as an industry member, brings many years of in-depth software expertise to the network

The infoteam Software Group has been an industry member of the Swiss Healthcare Startups network since July 1, 2022. The network thereby gains a software development specialist with decades of expertise. As part of the membership, infoteam will primarily contribute its expertise in app development for digital health applications and software for standard-compliant medical devices. "At the beginning of a business start-up, many of the people in charge at the start-ups are usually not yet aware of the complex requirements that software as a medical device and software in medical devices must fulfill," explains Thomas Eichmann, Business Development Manager at infoteam Software AG in Switzerland. "This is where infoteam can offer in-depth consulting as well as deliver software development at a level that is critical for subsequent business success."

Around 1,100 startups from the healthcare sector exist in Switzerland, about 600 of which are united by the Swiss Healthcare Startups network. These develop healthcare solutions in areas such as MedTech, Digital Health, AI and many more.

About infoteam Software Group

infoteam Software Group has been implementing unique software solutions for their customers in the industry, infrastructure, life science and public service markets for almost 40 years. Its core business comprises the partial and total development of control and embedded software, middleware and application software – agile, modern and in line with the latest security requirements. Special areas of expertise include normatively regulated software for use in medical and laboratory equipment (IVDR, MDR, FDA, ISO 13485, IEC 62304, etc.) as well as functionally safe software at the highest safety level (IEC 61508, EN 50128, etc.). The service portfolio is well rounded as a result of many years of experience in data analysis, AI and machine learning.

infoteam Software Group employs more than 300 people and has offices and subsidiaries in Germany, the Czech Republic, Switzerland, Greece and China. The parent company, infoteam Software AG, is headquartered in Bubenreuth in the Bavarian metropole region Nuremberg, Germany.
