

PRESS RELEASE

infoteam establishes subsidiary in Greece

Build-up of development teams already in full swing

Bubenreuth/Thessaloniki, 14th of July, 2022

- infoteam Software Group continues to grow: Subsidiary founded in Greece
- Greek development teams to initially support existing projects
- In the medium and long term, also own project acquisition in Greece

The infoteam Software Group founds its first subsidiary in Thessaloniki, Greece, infoteam Hellas M.I.K.E.¹. The managing directors are Dr. Alexis Papadimitriou (40), who works directly on site, and Joachim Strobel (56), who manages the company from Germany. The last-named is also CEO of the German infoteam Software AG, headquartered in Bubenreuth near Erlangen, whose wholly owned subsidiary is the company in Greece.

Currently, infoteam is building teams of software developers in Thessaloniki. These teams will initially support existing projects from German speaking regions. In the medium term, the Greek infoteam branch is also to successively acquire projects on site and implement them independently.

"In Thessaloniki, we will meet excellently trained and highly motivated software specialists who will provide great support to our teams and live and shape the infoteam spirit in Greece, too," states Dr. Alexis Papadimitriou. In order to promote this development infoteam attaches great importance to transferring both its own corporate philosophy and its high development standards to the Greek company. Regular personal exchanges between the sites as well as training and language courses for Greek employees are therefore important pillars of the cooperation.

Joachim Strobel also sees in Thessaloniki an attractive location: "infoteam grows continuously by an average of 14 percent per year.

¹ M.I.K.E. corresponds to legal form of a GmbH (Germany) or Ltd/LLC (UK/USA).

I am convinced that thanks to the high level of expertise and the open structures for sustainable and innovative digitization in Greece, our new subsidiary we will be an important component with a lot of thrust within infoteam." For many years now, Greece has been continuously earning the reputation of the European Silicone Valley. Excellent training, innovative companies and a high degree of digitalization are the fruits of this tech initiative, to which infoteam henceforth also contributes its share.

About infoteam Software Group

infoteam Software Group has been implementing unique software solutions for their customers in the industry, infrastructure, life science and public service markets for almost 40 years. Its core business comprises the partial and total development of control and embedded software, middleware and application software – agile, modern and in line with the latest security requirements. Special areas of expertise include normatively regulated software for use in medical and laboratory equipment (IVDR, MDR, FDA, ISO 13485, IEC 62304, etc.) as well as functionally safe software at the highest safety level (IEC 61508, EN 50128, etc.). The service portfolio is well rounded as a result of many years of experience in data analysis, AI and machine learning.

infoteam Software Group employs more than 300 people and has offices and subsidiaries in Germany, the Czech Republic, Switzerland, Greece and China. The parent company, infoteam Software AG, is headquartered in Bubenreuth in the Bavarian metropole region Nuremberg, Germany.
