Thomas Eichmann boosts infoteam Software Group in Switzerland

Contact person for Swiss customers directly on site

Bubenreuth/Buchs SG, 12th of April 2022

- Thomas Eichmann is Business Development Manager

- Focus on life science and mechanical engineering

- Branch office location in Buchs SG

Already since the beginning of March 2022, Swiss citizen Thomas Eichmann (47) is the new Business Development Manager at infoteam Software AG in Switzerland. With this appointment the infoteam Software Group, headquartered near Erlangen in Germany, is responding to the increased demand for customer-specific software development. Thomas Eichmann will now act as a direct local contact for customers, thus intensifying existing, long-standing customer relationships and making infoteam even better known in Switzerland. "Swiss companies demand the highest quality and are therefore looking for development partners who think outside the box, contribute to projects with enormous expertise on an equal footing and with self-confidence, and identify with the success of the project. This is exactly what infoteam has been delivering for almost 40 years and I am therefore pleased to be able to use and further develop this expertise for the Swiss market," says Thomas Eichmann. His focus is on software development for the life science industry (both in the normative regulated environment and in the R&D sector) and mechanical engineering.

As part of the continuous expansion of its activities in Switzerland, infoteam already relocated its branch office to Buchs in the canton of St. Gallen last year. "Buchs offers us close proximity to many highly interesting companies in the Rhine Valley, has short distances to other

important industrial areas in Switzerland and opens up versatile interfaces to universities and research," says Joachim Strobel, CEO of infoteam Software AG in Germany and President of the Board of Directors in Switzerland.

About infoteam Software Group

infoteam Software Group has been implementing unique software solutions for their customers in the industry, infrastructure, life science and public service markets for almost 40 years. Its core business comprises the partial and total development of control and embedded software, middleware and application software – agile, modern and in line with the latest security requirements. Special areas of expertise include normatively regulated software for use in medical and laboratory equipment (IVDR, MDR, FDA, ISO 13485, IEC 62304, etc.) as well as functionally safe software at the highest safety level (IEC 61508, EN 50128, etc.). The service portfolio is well rounded as a result of many years of experience in data analysis, AI and machine learning.

infoteam Software Group employs more than 300 people and has offices and subsidiaries in Germany, the Czech Republic, Switzerland and China. The parent company, infoteam Software AG, is headquartered in Bubenreuth near Erlangen, Germany.
