

PRESS RELEASE

Trust is good, certificate is better

infoteam Software AG and infoteam SET GmbH receive certificate for information security management according to ISO 27001

Bubenreuth, 17th of February 2021

- The certificate includes infoteam Software AG, located in Bubenreuth and Dortmund, and its subsidiary infoteam SET GmbH.
- The certificate is valid since 08 January 2021.
- ISO 27001 defines the management of information security in companies.

infoteam Software AG and infoteam SET GmbH have been certified for information security management in accordance with ISO 27001 since 08 January 2021. The certificate confirms that both companies have defined processes in place to meet the requirements formulated in the standard regarding the protection goals of "confidentiality", "integrity" and "availability".

"Our customers trust us with their intellectual property as well as their data for software development and rely on the fact that they are safe with infoteam," emphasises Michael Sperber, CTO at infoteam Software AG. This data and the trust of the customers have always been of the highest priority for the company together with the infoteam employees. Information security has therefore been anchored in infoteam's certified quality management according to ISO 9001 and ISO 13485 for decades. "With the ISO 27001 certificate, we can now also decisively prove the corresponding processes at our company and make it easier for our customers to audit us regarding information management." The certificate therefore covers infoteam SET GmbH, which specialises in the development of functionally safe software, in addition to infoteam Software AG.

About infoteam Software Gruppe

infoteam Software Group has been implementing unique software solutions for their customers in the industry, infrastructure, life science and public service markets for almost 40 years. Its core business comprises the partial and total development of control and embedded software, middleware and application software – agile, modern and in line with the latest security requirements. Special areas of expertise include normatively regulated software for use in medical and laboratory equipment (IVDR, MDR, FDA, ISO 13485, IEC 62304, etc.) as well as functionally safe software at the highest safety level (IEC 61508, EN 50128, etc.). The service portfolio is well rounded as a result of many years of experience in data analysis, AI and machine learning.

infoteam Software Group employs more than 300 people and has offices and subsidiaries in Germany, the Czech Republic, Switzerland and China. The parent company, infoteam Software AG, is headquartered in Bubenreuth near Erlangen, Germany.
